# FLORIDA SOCIETY OF INTERVENTIONAL PAIN PHYSICIANS (FSIPP)

FSIPP is THE voice for Interventional pain physicians. FSIPP has been a leader in promoting fair legislation access to care and protecting reimbursements. We continue to educate payors, state officials and organizations regarding our area of expertise. We must make ownership our specialty, promote well developed research and continue to expand our mission in the public and political arena.

## **Mission of ASIPP and FSIPP**

To promote the development and practice of safe, high quality, cost effective interventional pain management techniques for the diagnosis and treatment of pain and related disorders and to ensure patient access to these interventions.

## **Our Educational Program**

### **Statement of need**

Pain management and interventional pain management are quickly growing fields in medicine. Emerging science and treatment options for patient care are growing rapidly and it is important for clinicians specializing in this field of medicine to know, understand and evaluate available options to be able to continue to provide the best treatment options and quality of care for patients. Additionally, this field of medicine is subject to higher than normal scrutiny, liability, and litigiousness stemming from alleged over treatment and under treatment of care. It is vitally important for clinicians to understand best practices and practice guidelines to ensure that they are offering the best care, remaining in compliance to lessen exposure and liability while still insuring access to care and the best treatment outcomes for patients.

### **Program Goal and Learning Objectives**

The goal of this activity is to disseminate best practices in the assessment, diagnosis, treatment and management of patients with pain.

At the completion of this activity, participants should be better prepared to:

- Recognize and evaluate pain, description of pain, and pain makers
- Interpret new Federal Regulations to assist in implementing standards of care and to assist in patient and compliance
- Achieve a greater understanding of best practices and available guidelines on new techniques, agents and therapies for patients

### **Accreditation**

Annual Conference will be CME Eligible. Full information regarding joint accreditation and number of credits approved will be provided prior to the conference.

## Target Audience and General Information

FSIPP Interventional Pain Management, 2025 will feature an Interventional Pain Medicine faculty, some nationally and internationally recognized. This content led conference will help the Interventional pain medicine practitioner expand and updated existing knowledge/skills regarding ever-increasingly, sophisticated diagnostic and practice guidelines, to share new ideas for evaluation and treatment techniques, and to increase the practitioner's knowledge and ability to act and advocate for patients within the current medical legislative and regulatory environment. Educational formats include lectures, PowerPoint presentations, a Panel, and Question and Answer time built into every presentation for audience participation and learning.
